

The Education Center and Museum

A social narrative for where to go when I'm ready to leave or visit the Education Center and Museum.

When I leave the estate, I will pass by the Education Center and Museum.

The exhibits are loud. Some spaces are dark and some are bright.

To keep me healthy and safe, touchscreens in the exhibits are turned off in the Museum and Education Center.

To keep me healthy and safe, many places in the Education Center are closed, such as the theaters and Hands-on-History.

I can wash my hands or use hand sanitizer if I touch something.

To exit, I will walk down a long hallway with big windows.

I will walk through this room. The floor looks like a map.

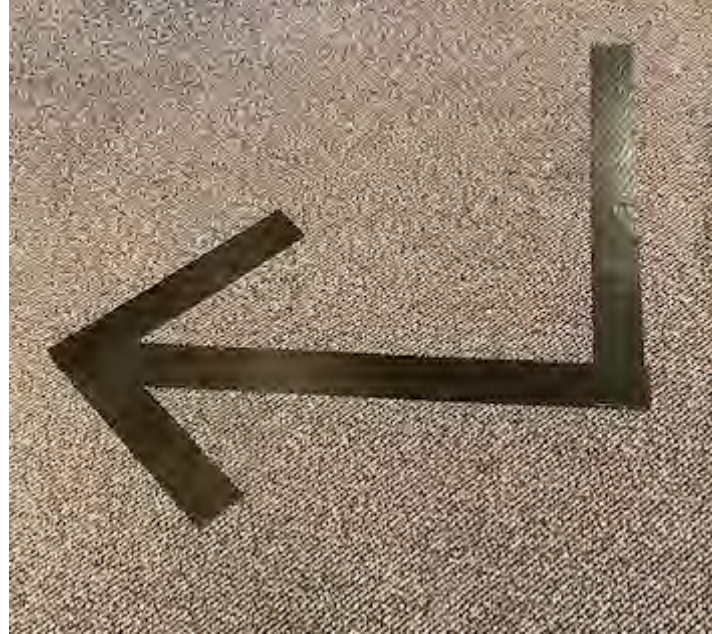

Sometimes there are many people in this lobby because everyone exits here.

The food court is closed, but I can still get food and water at the Food Truck outside, or order online through the restaurant.

I will walk past the gift shop.

If I want to shop, I will follow the one-way traffic pattern.

That's all for today! Thank you visiting
Mount Vernon!
